Guiding your child

through maths

#you
atSouthportCollege

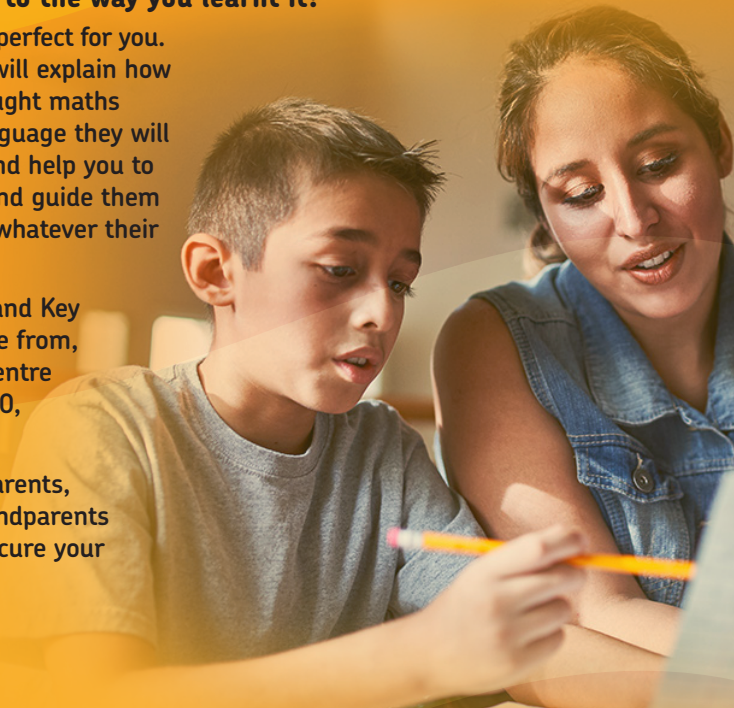

FREE courses to help you support your child with KS1 or KS2 maths

Ever wondered why the way your children are learning maths is so different to the way you learnt it?

Then this free course is perfect for you. Our experienced tutors will explain how primary children are taught maths today, demystify the language they will be coming home with and help you to find strategies to help and guide them through their learning, whatever their mathematic ability.

There is a Key Stage 1 and Key Stage 2 option to choose from, both held at our town centre campus from 9:30-12:30, one morning a week.

It's a great course for parents, guardians and even grandparents too, so go online and secure your place today.

Course	Start Date	Days	Start	End	Weeks
Guiding your child through KS1 maths	12 Jan	Thu	09:30	12:30	6
Guiding your child through KS2 maths	11 Jan	Wed	09:30	12:30	6
